ABOUT LS SCIENCE

LS Science inspires children to discover concepts and processes in a hands-on way. Students will learn to communicate scientific understanding using evidence-based solutions.

Each sold in packs of ten books \$85.95

Shortlisted in the 2016 Educational Publishing Australia Awards.

Covering your K-3+ science needs!

Investigation Two

Put some big and small rubber bands around the lunch boxes and pluck them.

Listen to the high sounds and low sounds!

Music comes from vibrations.

Investigating Rust

What is rust? Rust is like a disease that eats away at iron. It is caused by chemical reactions that change strong metal into flakes. Iron is used in structures for its strength, so it is important to understand how rust happens, because rust makes it weak.

An experiment can show us what causes rust.

What you need:

- Clock (optional)
- Water
- Vegetable oil
- 3 jars with lids that fit tightly
- 3 wads of steel wool (plain, not soap-coated)
- Camera, notebook and pencil
