# Fix-it Fox and the Hidden Sounds

## 'Fix-it Fox and the Hidden Sounds'

makes phonemic awareness an irresistible game of words and sounds for kids.

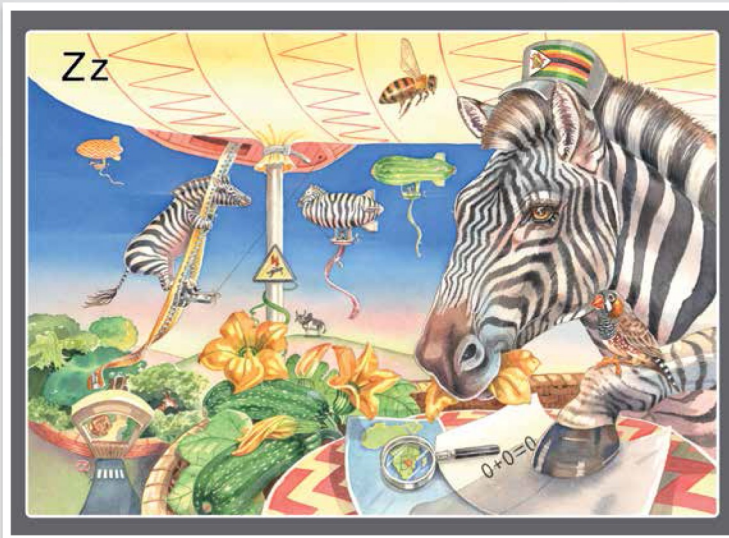

With research by Dr Susan Hill and illustrated by Leanne Argent, this Australian book is a must have for pre-schools, early-learning centres, primary schools and homes.

- ✓ Language and literacy development.
- ✓ Phonological and phonemic awareness.
- ✓ Letter names, new vocabulary and listening comprehension.

Ages 2+

ISBN 978 174144 565 7

\$29.95 ea

## Words

Take turns and say the words on the page. Some word meanings are easy; others will need to be explained. One clue is that most words begin with the same sound.

Look for and say the words for animals, animals' feelings, objects, country flags, the colours, numbers and actions.

The pictures include words that are nouns, verbs, adjectives and adverbs.

Check the index to see if you have most of the words. Make a list of the words to show how the sounds connect to the letters.

Ff

fog

fish

feather

five

How many more can you find?

Nn

night

nest

nuts

nap
